Fall 2012

Midterm 1 Catch-Up

Name:

Date:

You can recoup up to two-thirds of the points you lost on Midterm 1. Here’s how...

A. For questions on which you lost less than three points, there’s no point in a make-up answer, so leave these alone.

B. For questions on which you scored at least three points:
   1. Write a paragraph explaining why your answer was wrong
   2. Write a bullet list of sentences explaining the main points that every student should know that relate to the material covered by the question.

C. For questions on which you scored fewer than three points:
   1. Write a bullet list of sentences explaining the main points that every student should know that relate to the material covered by the question.
   2. Write a new exam question that covers this material.
   3. Write a model answer to this question, without copying from the model answers from sample midterm or the midterm.

Turn in:

1. A photocopy of your original graded Midterm 1.
2. A page for each question on which you are catching up.
3. This assignment sheet, signed.

Your catch-up answers are due at the start of class on November 14, 2012. No late materials will be accepted, so start working on this now.

*I agree to have my Midterm 1 score (plus catch-up) and my Midterm 2 score count in place of a final examination in this course. I affirm that I prepared my catch-up materials entirely by myself.*
